LESSON 01 / LEARN THE SKILL

LOVE YOUR FAMILY ENOUGH TO DO THE UNCOMFORTABLE WORK.

Everything you want to do and be successful at is right on the other side of the shit you do not want to do. Sometimes that work is asking for the sale. Sometimes it is telling your family what happens when you die. Avoiding the conversation does not protect them. It leaves them to guess when they are grieving.

DO IT IN THIS ORDER

01. Choose the person who should receive your planning file.
02. Write wishes in words they can understand.
03. Discuss costs and how money would be accessed.
04. Schedule a calm conversation before there is an emergency.

WORKED EXAMPLE / ASSUMPTIONS EXPLAINED

A folder with policies, contacts, wishes, and document locations can save the family a frantic search. A folder nobody knows exists does not do that job.

HELP / WHAT THAT WORD MEANS

Planning contact = the person who knows where the file is; that title alone does not create legal authority.

YOUR NEXT MOVE

Tell one trusted person where the planning file will be kept.
